

Health Screening for Hope Kids

we ask that every parent of Hope Kids student[s] should go through the following checklist before heading to Hope Kids. Please answer these questions keeping in mind **your child, your household, and anyone in the vehicle.**

SELF-SCREENING QUESTIONNAIRE

By having your child attend Hope Kids, you are confirming that your child and others entering the building with them can successfully complete this health questionnaire.

- Temperature 100.0 degrees Fahrenheit or higher when taken by mouth
- Sore throat
- New uncontrolled cough that causes difficulty breathing (for individuals with chronic allergic/asthmatic cough, a change in their cough from baseline)
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache, especially with a fever
- Had close contact within the last 14 days (within six feet) with a person with confirmed case of COVID-19
- Had close contact within the last 14 days (within six feet) with a person currently under quarantine for possible exposure.
- Traveled outside the country in the last 14 days.

If you checked any of the above boxes, your child should stay home.
