

No one else in the universe is just like you. Even identical twins don't have the same DNA. You are uniquely created for a purpose and a mission. As you more fully understand who God is and experience the power of His grace and mercy, you'll be ready to complete it and share your journey with each other.

|                |                                   |  |     |
